Re: Supply to Hindalgi Jail: Area of Supply.

Under your Order No.9779/27 dated 12-11-1936, we have been permitted to give supply to the jail. A plan in that connection has been already deposited with you. ⊕ Slip B File no 54

2 Energy was supplied to two flour mills outside the area sanctioned under that order as the flour mills were required by jail authorities. At the time of giving supply, it did not strike us that these flour mills were outside the area of supply covered by the said order as they were just touching the border and the flour mills were found necessary by the jail authorities.

3 Recently, it has been brought to our notice that these flour mills fall outside the said area of supply. As the jail authorities find it necessary to have these flour mills connected to our supply, we shall thank you to give us permission to give supply to the flour mills situated within the area enclosed within green border in the deposited map sent herewith.

§ Slip C

We hope you will grant us the necessary permission to supply to the flour mills concerned.

Dear Sirs,

With reference to your letter no AMAL BEL/C-8-43, dated the 16th Aug 1943, I am to request you to furnish Govt with a copy of an agreement entered into by the consumers with you as reqd by the 2nd proviso of section 27 of the I. E. Act, 1910, and to furnish the following information:

(i) When was the supply first given to the two flour mills and when it was discontinued?

(ii) It is presumed that the electric supply line is already laid and that no addl material is reqd for reconnecting the flour mills.

Please confirm.

With reference to your letter No.6591/36-El of 6th inst. we have to state that the consumers were connected prior to May, 1939 and at that time two years' contracts were taken as usual. The consumers have been continuously supplied and the supply is continued even today.

As the consumers have not been disconnected, the question of requirements of additional materials does not arise.

The staff of the Central Prison take advantage of the flour mills installed at Hindalga village, otherwise they will have to go to Belgaum City, which is four miles away from the Prison, to grind their corn. At times the Prison also takes advantage of the village flour mill for the use of the inmates of the prison when the flour mill of the prison goes out of order. There seems, therefore, no objection to allow the Electricty Co. to supply energy to the flour mills situated in Hindalga village.

The statement made in para 2 of letter No.AMAL/BEL/C-8/43 dated 16-8-43 from Messrs The Amalgamated Electri-city Company(Belgaum)Limited(Belgaum Branch) is not correct.

It appears that the Company gave the supply of elect-ric energy without any reference to the Superintendent of the jail who had not made any ~~request~~ such request. This is clear from the letter No.3578 dated 7-4-43 from the Superintendent, Belgaum Central Prison to the President of the Electric Supply Co. (copy enclosed). P 15

The staff and sometimes the jail (when the jail flour mill is out of order) takes advantage of these mills. The mills are not absolutely essential for the prison although it is a convenience for the staff.

2. Please see letter from the Amalgamated Electricity Company (Belgaum), Ltd. Belgaum Branch on p. 1 ante. In the circumstances explained therein the Coy. requests permission to supply electrical energy to the two flour mills, which are outside its authorised area of supply. This permission can be granted under section 27 of the I.E.Act subject to the provisions mentioned therein.

3. Attention is invited to G.Ls. dated the 6th Sept. 1943 to the Ely. Coy., the Commr., S.D., the P.M.G., Bombay and the I.G. of Prisons and their replies on pp. 5, 11, 13 & 17 ante. The supply to the two mills was first given by the Coy. from a date prior to May 1939 and it is still continued. The Coy's first letter indicates as if the supply to the two mills was given and then discontinued. The statement made in para.2 of that letter to the effect that energy was supplied to the flour mills in question as they were found necy. by the Jail authorities is also not borne out by the report of the I.G. of Prisons, who observes that it is incorrect. The I.G. of Prisons, however, further remarks that the staff and sometimes the jail (when the jail flour mill is out of order) take advantage of these mills and that though they are not absolutely essential for the prison it is a convenience for the staff. The Collr. of Belgaum is also in favour of allowing the Coy. to give supply to the flour mills in question on the ground that they are a convenience to the jail and its staff. The P.M.G. reports that the electric wires which have been extended to the flour mills interfere in no place with the telegraph lines and wires. The Telegraph Deptt. has, therefore, no objection to the request of the Coy. being granted. The Coy. was asked to furnish a copy of the agreement entered into by the consumers with it as reqd. by the 2nd proviso of section 27 of the I.E.Act. But it observes that two years contracts were taken as usual when the supply was first given and since then the supply is being continued. Apparently the Coy. has no specific agreement with the consumer mills now.

4. In short, the position is that the electric supply company is supplying el. energy to the two mills in question since May 1939 without the sanction of Govt. reqd. under section 27 of the I.E.Act. There seems now no specific agreement bet

6591/36/30834.

between the licensee and the consumens regarding the supply. The P.M.G., the Collr. of Belgaum and the I.G. of Prisons have no objection to the supply being given to the mills. What is, therefore, now required is to regularise the position by granting the requisite sanction under section 27 of the I.E. Act. The El. Engr. to Govt. may be requested u.o. to state whether he has any objection to do so.

Yes
8
17/12

5. It will be necy. to consult R.L.A. as to whether the position can now be regularised under section 27 of the I.E.Act and whether with ref. to the 2nd proviso therein it will be necy. to ask the licensee first to enter into a specific agreement with the consumers in connection with the supply and submit a copy thereof to Govt. before the sanction is accorded. This will be done on return of the papers from the El. Engr. to Govt.

The El. Engr may kindly say if any action against the Coy is required for the unauthorised extension of the Coy's supply lines & if the staff of the Electrical Dept could not have spotted the Coy's extension & taken orders.

2. The extension of supply to the flour mills has been apparently due to misunderstanding on the part of the Supply Company, as the flour mills are situated just on the border of the area specified in the Government, Public Works Department, Order No.9779/27 dated the 12th November 1936. As these flour mills are chiefly taken advantage of by the jail staff and are a great convenience to them the Company's action in giving the unauthorised supply may be condoned.

3. The electric connection to the flour mills was duly notified to the Inspection Department and the Electric Sub-Inspector at site inspected the same without suspecting the error, as he had no grounds for any suspicion as the mills are situated on the border of the authorised area.

Section 27 of the Indian Electricity Act, 1910, appears to contemplate only prospective authorization. Consequently it would not be legally feasible to regularise the position by issuing any authorization retrospectively under that provision. It will only be possible now to regularise the position for the future.

The second proviso to section 27 provides that no authority to supply energy outside the area of supply shall be conferred unless the person to whom the supply is given has entered into a specific agreement with the licensee for the taking of such supply. Agreement with the consumers is therefore a condition precedent to the conferring of authority. The view taken by the Public Works Department

Resolution No. 6591/36.

Bombay Castle, 14th August 1944.

Letter from Messrs. The Amalgamated Electricity Company (Belgaum), Limited, (Belgaum Branch), No. AMAL/BEL/C-8/43, dated the 16th August 1943, as under:—

"Under your order No. 9779/27, dated 12th November 1936, we have been permitted to give supply to the jail. A plan in that connection has been already deposited with you.

"2. Energy was supplied to two flour mills outside the area sanctioned under that order as the flour mills were required by jail authorities. At the time of giving supply, it did not strike us that these flour mills were outside the area of supply covered by the said order as they were just touching the border and the flour mills were found necessary by the jail authorities.

"3. Recently, it has been brought to our notice that these flour mills fall outside the said area of supply. As the jail authorities find it necessary to have these flour mills connected to our supply, we shall thank you to give us permission to give supply to these flour mills situated within the area enclosed within green border in the deposited map sent herewith.

"4. We hope you will grant us the necessary permission to supply to the flour mills concerned."

Government letter No. 6591/36-El., dated the 21st February 1944, to Messrs. The Amalgamated Electricity Company (Belgaum), Limited, (Belgaum Branch), as under:—

"With reference to the correspondence ending with your letter No. AMAL/BEL/L-1-3/43, dated the 9th September 1943, please note that you should have ascertained definitely whether the consumers in question were situated in the authorised area or not and the necessary sanction should have been obtained under section 27 of the Indian Electricity Act, 1910, before the supply of energy was given to them. In future care should be taken to adhere strictly to the provisions of your license and the Indian Electricity Act.

"2. It seems that there are now no specific agreements between you and the consumers in question for the supply of energy. In order to regularise the position under section 27 of the Indian Electricity Act for the future it is necessary that the consumers in question should enter into specific agreements with you for the supply of energy. The necessary agreements should, therefore, be effected and copies thereof forwarded to Government on receipt of which further orders will be issued."

INDIAN ELECTRICITY ACT, 1910.

No. 6591/36.—Whereas the Amalgamated Electricity Company (Belgaum), Limited, (hereinafter referred to as "the Company") being the permitted assigns of the Belgaum Electric License, 1932, applied to the Government of Bombay to authorise the Company to supply energy to Messrs. Mohamedsab Kamalsab Pachapure and Ramachandra Bhimrao Kulkarni for the premises occupied by them at Belgaum (hereinafter referred to as the "said premises") more particularly described in the margin,* which are outside the area of supply as specified in the said license and shown on the plan deposited with Government.

*An area, about 2·5 × 0·5 furlongs, touching the Vengurla Road, the boundary of the present area of supply, and lying to the north of Jail side and shown in green in the deposited map.

And whereas by two agreements, dated the 4th March 1944, and made severally between the Company of the one part and the said Messrs. Mohamedsab Kamalsab Panchapure and Ramachandra Bhimrao Kulkarni respectively (hereinafter referred to as "the consumers") of the other part it has been agreed that subject to the authority of the Government of Bombay and subject to the terms and conditions mentioned in the said license, the consumers shall, from the date on which the said premises shall be connected to the Company's distribution system, take from the Company a constant supply of energy for a period of not less than two years for any or for all purposes for which the Company is authorised to supply energy to other consumers under the said license;

And whereas the said premises are not within the area of supply of any other licensee under the Indian Electricity Act, 1910 (IX of 1910);

Now, therefore, in exercise of the powers conferred by section 27 of the Indian Electricity Act, 1910 (IX of 1910), the Government of Bombay is pleased to authorise the Company to supply energy to the consumers for the said premises which are outside the area of supply as specified in the Belgaum Electric License, 1932, and for that purpose to lay down or place electric supply lines, subject always to the provisions of the said Act, the rules made thereunder and the terms and conditions of the said license as if the said supply were made within the area of supply.

Dated this fourteenth day of August 1944.
